The Rooms

Palm Beach Marriott Singer Island has 21 floors and 192 one- and two-bedroom suites. It's one of the few properties to only have suites which means all rooms have a separate living, dining, and sleeping space. This is one of the reasons this property is so popular for families and groups. There's plenty of room to spread out. Plus, you'll be pleasantly surprised with all the amenities including an in-suite washer and dryer; a fully equipped kitchen (think: plates, cups, silverware) with a dishwasher and microwave; and ocean views from private balconies. The condo-like rooms make it really wonderful if you're traveling with kids or simply want to pack light and wash clothes and make meals in the comfort of your own room.

The living room area is also very spacious and is separated from the kitchen by a granite island with bar stools. The living room has a large couch, TV, comfortable chairs. The bedroom is very spacious as well, with amazing views. The bathroom has an oversize tub, and a separate shower and toilet.

Location, Location, Location

The resort is near some of the top diving and snorkeling spots in the country. PALM BEACH MARRIOTT SINGER ISLAND BEACH RESORT & SPA

Just like in real estate, where a resort is located is the key to its success. The Palm Beach Marriott Singer Island is just steps away from the beach and is in close proximity to the top dive and snorkel sights, including Blue Heron

Bridge. Florida is no stranger to great diving, but many travelers are unaware that The Palm Beaches are home to hundreds of spectacular dives for every skill level. In fact, people come from all over the world to dive at Blue Heron Bridge at Phil Foster Park. It's known as one of the best shore-dive sites in the world (meaning divers don't jump off a boat, but literally wade into the water and dive from the shore). It's full of colorful sea life and a wide variety of underwater species. It's not uncommon to see seahorses, pipefish and even octopus. If you're not a diver, there's a special trail just for snorkelers (perfectly named the [Snorkel Trail](#)). The depth around Blue Heron Bridge goes from 4 feet at the entry point out to 20 feet near the boat wrecks. The Snorkel Trail ranges from 10 to 15 feet.
